

The Cognitive Abilities Test will be given **March 9th-11th, 2010**. Any first through twelfth grade student may take this test once per academic year.

All students in third and sixth grade (except those already identified gifted or students tested in the fall) will be given the Cognitive Abilities Test in March *unless written instructions to the contrary* are delivered to the site gifted coordinator. Third and sixth grade parents **do not** need to fill out a parent checklist prior to testing.

A parent checklist **is required** for students in all other grades that desire to test and the checklist may be picked up at the WE Building A office, WI main office or accessed online via the district gifted website. Upon submission, the form will be delivered electronically to the district coordinator Chere' Sammons. This checklist will be available on-line beginning February 5, 2010.

Parents who wish to have their student tested must complete the checklist no later than **Friday, February 26th, 2010**. This deadline is firm, as materials must be ordered ahead of time.
